

## Tork Reflex™ Starke Mehrzweck Papierwischtücher (Weiß)

Artikel	473474
Rollenlänge	67 m
System	M3 - Innenabrollung Reflex Mini System
Rollenbreite	19.4 cm
Rollendurchmesser	12.7 cm
Blattanzahl	200
Blattlänge	33.5 cm
Hülsendurchmesser	5.9 cm
Lagen	2
Farbe	Weiß

Vielseitig einsetzbare Papiertücher, die ideal zum Aufnehmen von Flüssigkeiten und Abwischen der Hände geeignet sind.

- Zertifiziert für den Kontakt mit Lebensmitteln
- Geeignet zum Abwischen der Hände
- Ideal geeignet zum Aufnehmen von Flüssigkeiten
- Mehrzweck Tücher – für unterschiedlichste Wischarbeiten geeignet

Virgin Pulp  
Recycled fibres  
Chemicals  
Material

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

**Bleaching of fibres**

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

**Chemicals**

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wetstrength agent  
Dry strength agent  
Dye = if coloured  
Fixing agents  
Glue = if used

The process chemicals are:

Antipitch  
Protection agent  
Yankee coating  
Defoamer  
Dispersing agents and surfactants  
pH and charge control  
Retention aids  
Broke treatment chemicals  
Drainage aid  
Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

**Food contact**

This product fulfils the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Environmental label = EU Ecolabel

This product is approved for the EU Ecolabel.

Date of issue 2014-05-26

Revision date 2014-11-27

SCA Hygiene Products AB, Bäckstengatan 5, 405 03  
GÖTEBORG, Sweden

**Production**

Material produced and converted at Hondouville mill, France, certified according to ISO 9001 : 2008 and ISO 14001:2004.

**Destruction**

CENTREFEED is used both for personal hygiene and for industrial processes. When used in industrial processes the product might through use be contaminated with different substances. This will determine how the used product will be handled / disposed of /destructured. The product itself is suitable for incineration. If used in industrial processes contact local authorities before destruction.
